

Standbasis Classroom Software

- ✓ Monitor and evaluate compliances and performance of curriculum teaching processes in real-time over the Web.
- ✓ Enable quality assurance administration on teaching processes via a distributed real-time flag system over the Web.
- ✓ Generate, distribute and store associated data for database operations.
- ✓ Provide environment for standardizing and online sharing of teaching and administration resources, system-wide.
- ✓ Teachers' digital devices implement the school's standards and policies covering curriculum teaching "resourcing, governance and expectations" and reports performance automatically.
- ✓ Standbasis Classroom Implement all nodes on the curriculum teaching chain (*proprietor / school administrator, Standards and quality desk, head/principal, teachers, stakeholders and central digital resource*) in a live web-based intranet; gathering teaching operations data automatically through teachers' digital devices. That removes all data security and integrity issues associated with delays and human factors.

*Imagine the whole school in a single hall with no partitions.
The power of real-time!*

Standbasis School Rating

- ✓ Provides school standards benchmark for management of internal school standards or referencing
- ✓ Provide School Evaluation and Rating in Standbasis Seven School Strategic Performance Areas, specific to the quality assurance zone (conventional ratings deal with the quality control zones)
 - ✓ Curriculum Teaching Processes Management
 - ✓ Instructor / teacher resource
 - ✓ Learning Environment
 - ✓ Total Student Development
 - ✓ Sustainability
 - ✓ Academic Performance
 - ✓ Safety, Security, Health, Security (SHES)

Acquire quantitative parameters for management, school marketing + intervention impact evaluation.

Standbasis Products and Services (2)

| School Strategic Performance Areas | Standbasis Standard | School Standard |
|---|---------------------|-----------------|
| Teaching Processes Management | XX % | XX % |
| Teacher / Instructor Resource | XX % | XX % |
| Learning Environment | XX % | XX % |
| Total Student Development | XX % | XX % |
| Sustainability | XX % | XX % |
| Academic Performance | XX % | XX % |
| Safety, Health, Environment and Security (SHES) | XX % | XX % |

Periodic school evaluation is best practice. It might take up to five years of discrete standards violations before the impact manifests in the school's academic performance..

Standbasis Academic Performance Aggregator

Reputation-wise, a School's Academic Status is of major interest to the operators of schools, private or public. It also circumvents the difficulty of comparing grade scores from year to year.

The irreducible expectation of parents is in the Transition Index of the school's result. It is the potential of the school's result to qualify the candidate for the next level of education.

The Drag Index of a school's result is the probability of any (subject) entry performing below the Credit [C] grade. This is important to parents analysis of the worse case scenario.

Another parameter that has gained prominence the Scheme of Work (SoW) Adequacy of a school's result. Ideally the SoW of a school should be superior or, at worse, at par with the syllabus operated.

They also provide schools operators with indicators for quality and productivity discussions.

| Parameter | Performance |
|------------------|---------------------|
| Academic Status | Grade 'A', 'B', 'C' |
| Transition Index | 0 – 1 |
| Drag Index | 0 – 1 |
| SoW Adequacy | + or - |

Standbasis Teacher Quality Evaluator

Teacher Asset Quality is mostly stated in the subjective whenever they come at all. Traditionally the Teacher-Student Ratio is conveniently flaunted.

Numbers is good but experience shows that the quality of teacher asset is very important to effective knowledge transfer and academic performance.

Standbasis provide insight to Teacher Asset Quality relative to a benchmark in terms of basic compliance, premium compliance performance, teaching experience, discipline distribution and nature of engagement to the school.

Teacher Asset Quality parameters present an important management tool. It is also a pitch item in school marketing particularly in the premium performance areas.

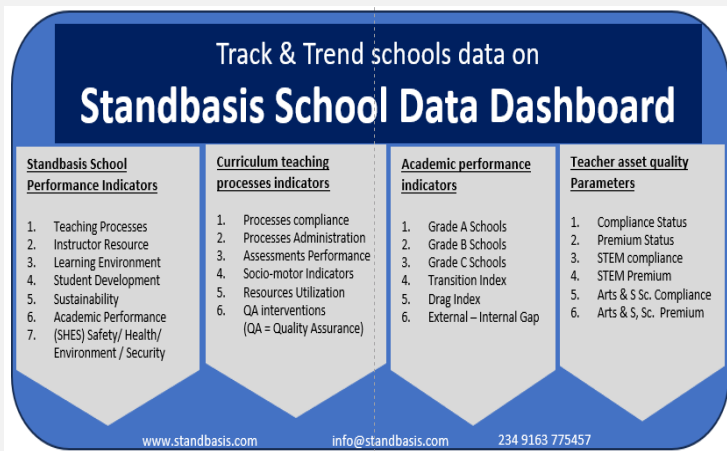

Discerning parents who spare time to do filtering and parametric comparison of schools want to know too!

Standbasis Products and Services (4)

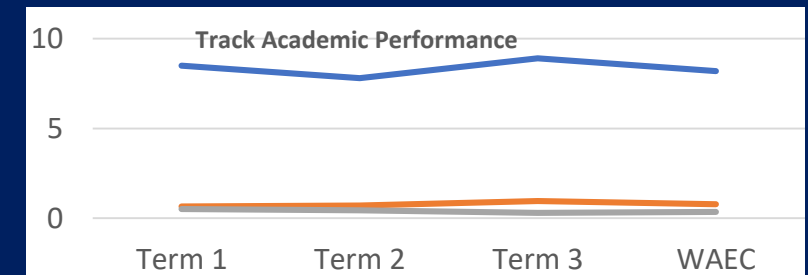

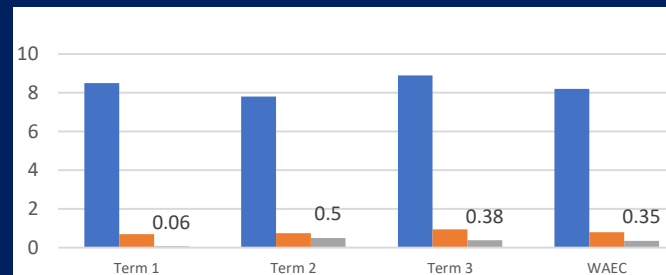

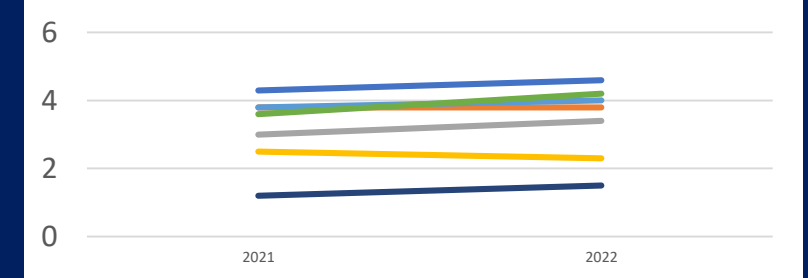

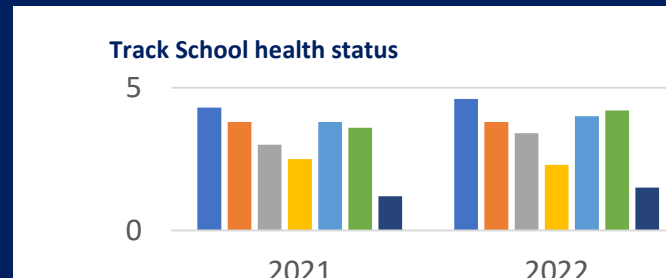

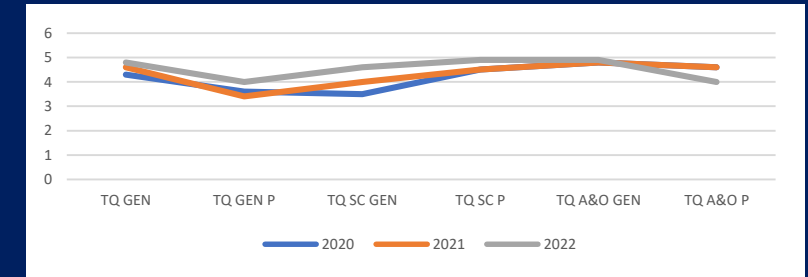

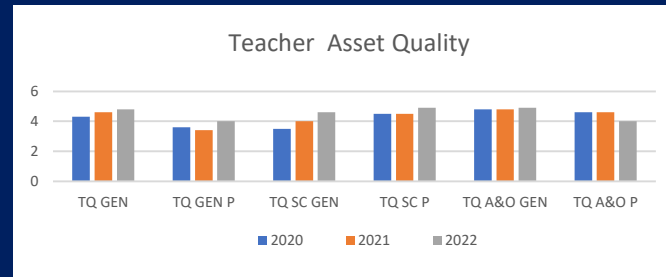

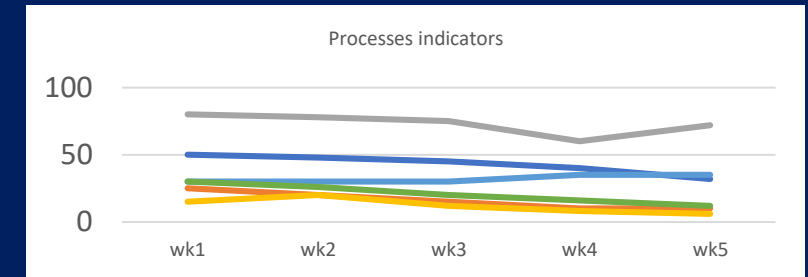

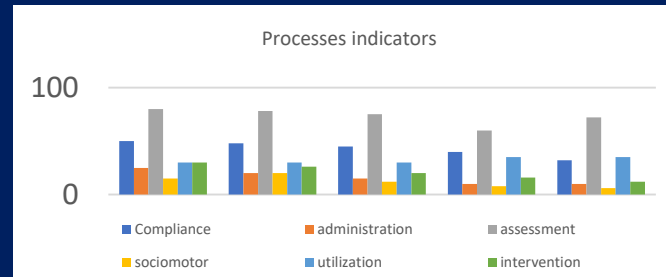

| Parameter | Performance |
|----------------------------|-------------|
| General Compliance | X % |
| General Premium | X % |
| STEM Compliance | X % |
| STEM Premium | X % |
| Arts and others Compliance | X % |
| Arts and others Premium | X % |
| General Compliance | X % |

Compliance is regulatory. Premium performance is for distinction.

Standbasis School Data Dashboard

Standbasis Products and Services (5)

Keep it basic: are we progressing, slacking or stagnating? That's the function of School Dashboard 'tracking and trending' of school evaluation outcomes.
